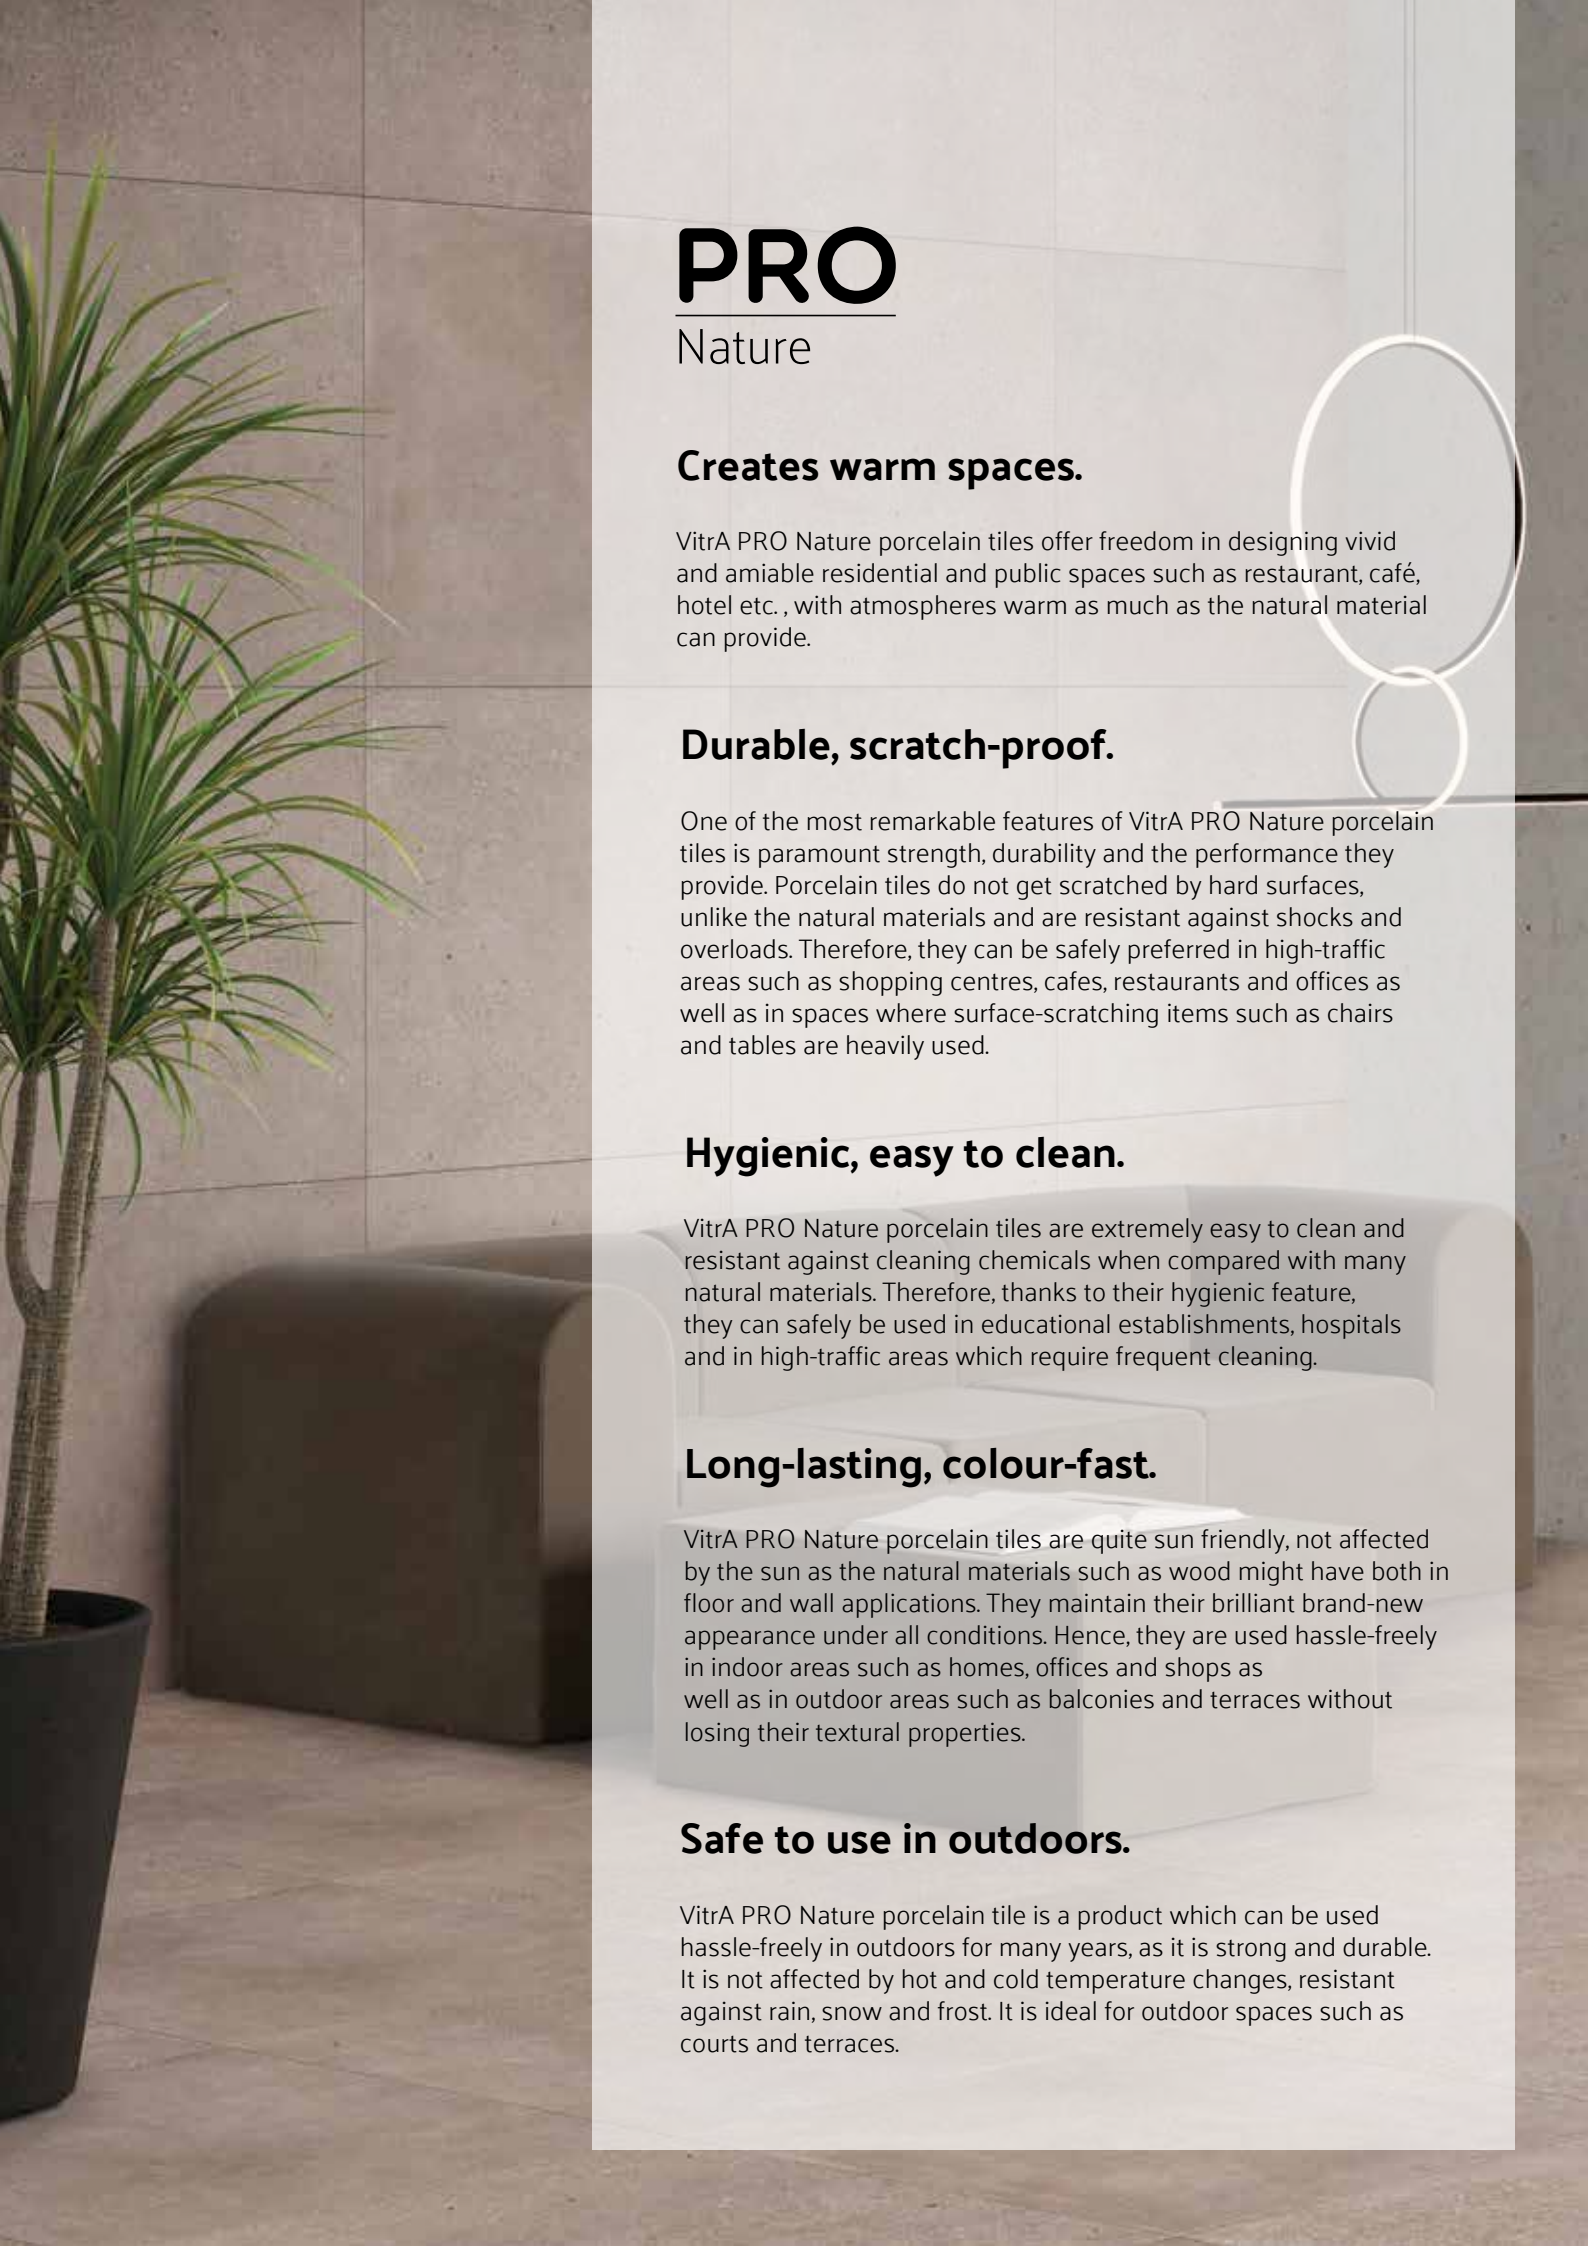
Vitra



PRO
Nature

Creates warm spaces.

VitrA PRO Nature porcelain tiles offer freedom in designing vivid and amiable residential and public spaces such as restaurant, café, hotel etc. , with atmospheres warm as much as the natural material can provide.

Durable, scratch-proof.

One of the most remarkable features of VitrA PRO Nature porcelain tiles is paramount strength, durability and the performance they provide. Porcelain tiles do not get scratched by hard surfaces, unlike the natural materials and are resistant against shocks and overloads. Therefore, they can be safely preferred in high-traffic areas such as shopping centres, cafes, restaurants and offices as well as in spaces where surface-scratching items such as chairs and tables are heavily used.

Hygienic, easy to clean.

VitrA PRO Nature porcelain tiles are extremely easy to clean and resistant against cleaning chemicals when compared with many natural materials. Therefore, thanks to their hygienic feature, they can safely be used in educational establishments, hospitals and in high-traffic areas which require frequent cleaning.

Long-lasting, colour-fast.

VitrA PRO Nature porcelain tiles are quite sun friendly, not affected by the sun as the natural materials such as wood might have both in floor and wall applications. They maintain their brilliant brand-new appearance under all conditions. Hence, they are used hassle-freely in indoor areas such as homes, offices and shops as well as in outdoor areas such as balconies and terraces without losing their textural properties.

Safe to use in outdoors.

VitrA PRO Nature porcelain tile is a product which can be used hassle-freely in outdoors for many years, as it is strong and durable. It is not affected by hot and cold temperature changes, resistant against rain, snow and frost. It is ideal for outdoor spaces such as courts and terraces.

VitrA Life Solutions

The design raised with functionality

Life Solutions

V-Safe

V-Safe

Guaranteed safety with anti-slip surface technology

V-Safe Mini
Anti-slip, soft-touch and hygienic surface technology providing safe living areas for babies and children

High level of slip resistance for industrial areas

V-Hygiene

V-Hygiene

Smart surface technologies for hygienic living spaces

V-Agent
No room for viruses

VitrA Shield
Self-cleaning technology that inhibits the growth of harmful bacteria

VitrA Clean
Ultra-easy to clean floor and wall tiles

VitrA Glowsafe

Glow in the dark for a safe walk in all living areas

Stair tiles that harvest the day light and reflect its energy in the night for a safe walk both in indoor and outdoor areas

VitrA reaLook

The most refined state of design to living spaces for ever-lasting look

Pure concrete - Combining the simplicity, architectural profoundness and endurance

Stone code - The secret of nature, which will never fade away

Marble dream - Nature's most precious treasure that combines modern life passion with prominent classical taste

Wood obsession - Warm and light-weighted lifelike texture

VitrA Solid

Long-lasting performance and quality

VitrA Protect+
Very fine glaze application against abrasion and colour fading

VitrA Block
Like the first day: Protection against yellowing

VitrA Professional
Fullbody and colorbody tiles that are extra resistant to harsh conditions in industrial and commercial areas

Brochures

Resincrete

VitrA's new tile system Resincrete is designed to stimulate emotions in living spaces by using colours, which are the most powerful form of self-expression, and to draw forth bursts of creativity. The texture of concrete blends with resin in a myriad of colour and surface options in Resincrete, designed for urban living spaces at the intersection of nature's colours with concrete, the basic element of modern urban architecture. Resincrete Tiles are designed using the powerful colours and oxides found in soil and nature, featuring surfaces that have epoxy-like casting, combining easily with the classical beauty of terrazzo and palladiano textures to create striking living spaces.

Quarstone

Stone textured porcelain collection that carries the strong and calm nature of quartzite stone. Reflecting the natural glittering of quartzite particles, Quarstone collection provides the opportunity to create harmonious combinations with other building elements in all living spaces through its warm and cold colour alternatives. Thanks to its surface texture closest to nature, it reflects the strong stone character from exteriors to the interior, thus creating the serene mood of an intimate shelter in indoors.

CementMix

VitrA creates a tile system based upon cement as one of the fundamental elements of modern urban architecture. Inspired by warm minimalism trend CementMix softens the traditional brutalist look of cement with variety of earthy warm hues. Through its systematic approach, it offers harmonised colour tones and calm texture options for users. In addition to its calm relief appearance, it re-interprets terrazzo appearance from the past to the present by using modern geometric speckles, natural stone and marble chips patterns.

Cardostone

reddot award 2019
winner

A colorbody porcelain collection inspired by the durable Cardoso stone of the Italian Alps. Cardostone offers the quintessential white veins of Cardoso stone in natural grey and anthracite colours as well as in a cooler beige and white colour choices. The relief surface option, which creates the most realistic appearance of the original stone's texture, reflects Cardostone's powerful nature. Highly anti-slip, easy to clean, and available in a thickness particularly suitable for exteriors, Cardostone perfectly complements all contemporary venues.

Stonelevel

A colorbody porcelain collection combining the look and feel of concrete and stone. Stonelevel merges the granulated structure of natural stone into the texture of exposed concrete and adds warm natural colours to create a one-of-a-kind natural stone collection. The collection's modular sizes and decorative tiles with organic relief patterns can be mixed and matched to create a wide variety of tiling solutions.

Craft

VitrA is inspired by the characteristic structure of oak, which has been used in architecture for centuries, and which transforms within the course of time, and reshapes it. Through the time approach that adds meaning and depth to wood; the new VitrA tile collection Craft makes a difference with its sophisticated texture and streaks. With delicately selected texture and five different colours, Craft Collection presents the freedom of design with 20 mm tiles specifically developed for outdoor use.

Marble - X

Marble - X adds luxurious touch to spaces through the most natural look of four different warm marble textures that can be used together. Each texture has its own specific touch; Augustos taupe colour adds a passionate and bold theatrical look, desert rosa terra colour, inspired by brown soil makes a naturalistic relieving impact, skyros cream, a neutral colour gives a refreshing feel, breccia capraia white colour strikes with a noble look.

Versus - M

A ceramic series using silver fantasy marble with hues which are closest to its natural colour. Presented with porcelain tiles in addition to its wall tiles, Versus is enriched with contrasts creating a sense of minimalism and modernity in all spaces. The contrast created by the cool marble tissue with glossy stainless steel bars of bronze colour gives a brand new outlook to walls.

retromix

A ceramic collection which re-interprets traditional tile patterns to be used in modern space design. retromix focuses on geometric forms in traditional patterns from a wide variety of geographies that have become universal in the course of time. Wall tiles reflect traces of the past in ethnic colours that also suggest a sense of being handmade. Available in 10x10 and 15x15 square formats, retromix offers both ease of application and a wide range of laying options that allows creativity.

Attention

When ordering ceramic tiles specify the areas of use.
Before tile setting, verify the tonality and calibration numbers, claims regarding these indications cannot be accepted after tile setting.
Crazing of glass borders is a nature of the ceramic tiles.
It is recommended to use VitrA Fix grout and adhesive materials with VitrA Ceramic Tiles.
The colours of tiles in the catalogue may not reflect the exact colours of the products.
For the compatibility of the products to be used with complementary parts, a special order note should be added requesting the simultaneous production of all tiles. There may be a colour tone difference in products produced at different times.
VitrA Karo San. ve Tic. A.Ş. reserves the right to change the products and technical specifications.
